

RuggedSentinel

- A Mobile Tank for the Mobile Workforce

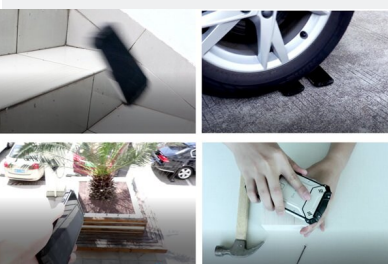

Our **RuggedSentinel** is perfect for companies with active employees in the field, where things get wet and dirty. It is stylish and comes in three colors - Black, Silver and Gold. Bottom and top panel are protruding, it protects the screen from a fall directly to the front. The back is made of a rubber material (polycarbonate) with a nice design. On the sides, there are 4 bulges that protect the phone from falling on the side - it is often such falls that are fatal to the phone.

In terms of structural robustness, there's not much this phone can't handle!
